SINDHU GANGADHARAN

MANAGING DIRECTOR & SENIOR VICE PRESIDENT, SAP LABS INDIA

With more than two decades at SAP, Sindhu Gangadharan has emerged as a prominent voice in India's technology ecosystem and a strong advocate for women in tech. The first woman to lead SAP Labs India, she is now Head of Customer Industry Solutions, driving industry-specific AI and helping enterprises move from experimentation to scaled transformation. A former NASSCOM Chairperson, she has also championed India's role in technology and research and development; around 40% of SAP's global R&D workforce is based in India.

SUMAN MISHRA

MD & CEO,
MAHINDRA LAST MILE MOBILITY

Suman Mishra has steered Mahindra Last Mile Mobility towards electric mobility, transforming a business selling 200-300 electric three-wheelers monthly into one selling 15,000-16,000. Under her leadership, the company achieved Unicorn status in 2026. A former McKinsey and Accenture executive, Mishra is also expanding women's participation in manufacturing, with all-women shifts on battery pack assembly lines. Her next challenge is achieving profitability without subsidies. Her advice to women aspiring to leadership is simple: "Be authentic with who you are."
