NEW INITIATIVES	• Launched PGDM in Banking and Financial Services and Business Analytics. Plans to launch a Bachelor's programme that combines technology and business. Has applied to become a university • Moved quickly to include AI as part of the curriculum. Has a course on technology and business that covers AI, cloud, blockchain, and how these impact businesses • Has introduced a course on geopolitics and business

tions. We have to start taking steps. PGDM in BFS is one such thing, Business Analytics is another," he says Sahay.

MDI Gurgaon trains students on the skills the industry is asking for, says Sahay. "The institute is moving quickly to include AI as part of the curriculum among different courses," he says, adding that the key challenge is nudging students to use AI not just as a crutch but to exercise their minds.

Similarly, MDI has introduced a course on geopolitics and business.

Vidhi Kothari, a 24-year-old student who joined MDI Gurgaon after working with JP Morgan Chase for about two years in Bengaluru, says the institute's industry connect is valuable. "MDI is in Gurgaon, the heart of the corporate jungle. The opportunities are endless. We have different corporates coming here almost every day," says Kothari. BT
