ELECTRIC VEHICLES

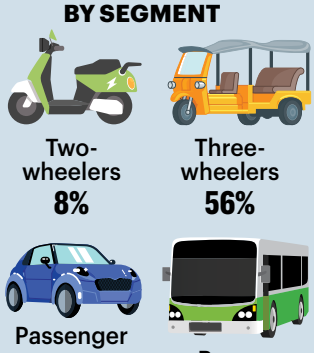

IN A SLOW LANE

Rising fuel prices strengthen the case for EVs, but their penetration in India remains limited

FOREIGN TRAVEL

TURBULENCE AHEAD

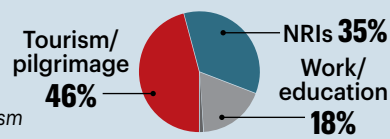

International airfares have risen by 20-25 per cent, threatening overseas travel just as the sector was regaining momentum after the COVID-19 lockdowns

that economic compulsions had become increasingly difficult to ignore.

Since 2014, the Modi government has pursued a sustained effort to reduce import dependence. Minimum support prices for oilseeds such as mustard, soybean and sunflower were repeatedly increased. Oilseed production grew by 55 per cent over the past decade through a combination of expanded acreage and improved yields. The government had also launched two major missions: the National Mission on Edible Oils–Oil Palm in 2021 with an outlay of Rs 11,040 crore, and the National Mission on Edible Oils–Oilseeds in 2024. Together, they target domestic edible oil production of 25.45 million tonnes by

Even as the government pushes for electric vehicles, its GST rationalisation in September has made internal combustion engine vehicles cheaper relative to EVs
