

In all 1,53,916 seats were available in engineering and architecture courses in engineering colleges in the State for acadedmic year 2025-26. Of these, 72,506 are government quota seats, 32,231 are COMED-K seats and 49,141 are management quota seats.

The government quota seats are filled by conducting the Common Entrance Test (CET) by Karnataka Examination Authority (KEA), while COMED-K fills its seats by conducting an entrance test at the All India level. However, a large number of students who enroll for COMED-K and Management quota seats are from outside the state and abroad.

EMPLOYMENT AVAILABILITY

Bengaluru is the country's leading IT and BT hub, with thousands of national and international corporate companies operating there, providing employment to lakhs of people.

Bengaluru is also the capital of startups, with about 15,000 startups located here, of which there are more than 40 Unicorn companies. And, there are more than 100 Research and Development (R&D) centres, which provide opportunities for research.

In addition, most technical institutions in the State have adopted innovative technologies including Artificial Intelligence (AI), Machine Learning (ML) and Robotics and a curriculum that is in line with industrial demand, introduced AI technology in all branches of engineering, started 'Centers of Excellence', 'Incubation Centres,' tied up with industries to provide real-time experiences with internships to students, emphasised practical knowledge over theory, and Memorandum of Understanding (MoU) with foreign universities to provide quality education.

And, due to the available of jobs in the IT and BT sectors, Karnataka and Bengaluru are the favourite destinations for higher education for students from the State, out-of-state and abroad.

MEDICAL

Karnataka has the highest number of medical colleges and medical seats after Tamil Nadu. Currently, there are 73 government and private medical colleges in the State, with more than 15,000 MBBS seats available. And, there are a total of 47 dental colleges, with more than 6,000 BDS seats.

From 2025-26, the Karnataka government has reserved 15% of the seats in its 22 government medical colleges as Non-Resident Indian (NRI) quota seats. Therefore, the number of students coming from other states and foreign countries for medical education for management quota and NRI quota seats has also increased.

OTHER COURSES

In addition to all this, there are about 50,000 seats available in allied health sciences courses including nursing and pharmacy in the State, out of which the number of seats in B.Sc. Nursing courses has highest number of seats.

There are a total of 380 nursing colleges in the State, with 34,050 B.Sc. Nursing seats available. Of these, 20% seats are government quota and 80% are management seats. Among the students enrolled in management quota seats, a large number of students are from outside states such as Kerala, Assam and the North Eastern states.

The State Government has emphasised on providing employment abroad to allied health sciences students including nursing, and has made teaching of German, Italian and other foreign languages compulsory in these colleges from the year 2025-26.

IN GOVERNMENT INSTITUTIONS

In the wake of global developments, the State Government and the Department of Collegiate Education have taken steps to bring about structural changes in the system of colleges under their jurisdiction.

In 440 government first-grade colleges and 16 government engineering colleges across the State, 6,500 classrooms have been converted into smart classrooms to facilitate digital learning.

To encourage higher education of students from economically weaker sections, the department provides interest subsidy for the loans taken by students from banks under the Rajiv Gandhi Loan Scheme. Female students studying in government and private aided degree colleges are exempted from tuition and laboratory fees.

The revised C-25 Diploma Syllabus has been implemented from the academic year 2025-26 in accordance with the industrial requirements and emerging technologies in all 44 Diploma courses of the State Polytechnic Diploma colleges under the Department of Technical Education in collaboration with industrial and technical experts.

The Diploma Syllabus is prepared by the prestigious industrial institutes of the State, both domestic and international, such as Infosys, AWS, Google, LTI, Mind Tree, Volvo, TVS, Toyota, Bangalore Chamber of Industries and Commerce, Suzlon, Logiware, Micron, CDAC, Shobha Developers, Prestige group, Brigade group, National Highway Authority of India and other institutions have been discussed with technical experts and curricula have been adopted to provide technical skill training required for the relevant industries.

In the public universities of the State, research-oriented curricula have been implemented for students of undergraduate and post-graduate programmes. By emphasising projects and internships in the curriculum, an environment has been provided that is conducive to the job market.

To promote international cooperation within Karnataka and to promote academic excellence in public universities of the State, the Karnataka State Higher Education Council has collaborated with the
