

PROF. DR. C. RAJ KUMAR
Vice Chancellor - O.P. Jindal Global University

"Being recognized in the QS World University Rankings by Subject 2026 for Computer Science and Information Systems is a meaningful moment for Galgotias University. More than the recognition, it reflects the journey and the efforts that have shaped it over the years. This is not the outcome of a single milestone, but the result of a sustained commitment to building a strong quality academic ecosystem."

SUNEEL GALGOTIA, Chancellor, Galgotias University

exposure by partnering with leading companies to offer internships and co-op placements. Students are also encouraged to participate in hackathons and other competitions to showcase their skills building confidence by igniting scientific curiosity and entrepreneurial spirit.

With the inaugural of Asia's largest green field airports at Jewar, Uttar Pradesh, it is not only set to attract world-class universities setting-up their base here, but proximity of educational institutions to the Noida International Airport will serve as easy access to some of the best campuses for students from across the country and the world. Moreover, the all-round infrastructure development in and around Jewar will act as a catalyst in strengthening the presence of leading national and global academic brands that will feed the skilled and trained manpower demands of multiple industry sectors.

One such institution of prominence in the area is the Galgotia University (GU). Established in 2011, the Galgotias University has emerged as a contributor to technology-focused education in India. Its recent inclusion in the Quacquarelli Symonds (QS) World University Rankings 2026 by subject (Computer Science and Information Systems) reflects a continued emphasis on academic standards, industry-aligned curriculum design, and a student-centred active learning ecosystem.

Ranked 15th among top private universities and 43rd among all Indian universities by QS, this achievement marks a powerful endorsement of Galgotias commitment to academic excellence, global relevance, and innovation in higher education. Galgotias has also been accredited with NAAC A+ grade in its very first cycle, achieving these milestones in a record time of just 14 years. These recognitions highlight GU's strong focus on teaching excellence, research impact, internationalization, industry integration, and innovation driven learning, shaping globally competent graduates ready for the challenges of the future

The Galgotias university has also expanded its academic focus to areas such as artificial intelligence, data science, cybersecurity, and software engineering, aligning its programmes with evolving industry and societal requirements. The recognition is seen as an outcome of sustained efforts to develop a robust academic and research environment.

Established in 1992-93 by Dr Achyuta Samanta, Kalinga Institute of Industrial Technology in Bhubaneswar, Odisha, stands out for its extensive portfolio of academic programmes pursued with rigorous learning, global exposure, and industry integration. KIIT Deemed to be University featuring in the 'World University Ranking' for 2026, within the cohort of 501-600, is a reflection of its sustained focus on quality teaching, research activities and a remarkable rise in its global reputation.

On the western geography of India, CHRIST (Deemed to be University), a multidisciplinary, multi-campus at Bengaluru is proud to enter the QS World University Rankings this year. This status has been achieved after concerted emphasis on nurturing a culture of curiosity, critical thinking, ethical responsibility, and social sensitivity while research and knowledge creation are integral to its vision. Joining the QS Ranking in 2026 is the premier IIT Gandhinagar, Gujarat, which believes in thinking across boundaries for pursuit of excellence through a strong research temperament that is embedded in everyday learning to address and seek solutions to complex questions.

DR. ACHYUTA SAMANTA
Founder KIIT Deemed to be University

The chase to world rankings by the Indian private varsities stand on the strong foundation of pedagogy, innovative academic development, facilities and employability. These milestones also reflects the collective efforts of faculty, students, and institutional partners and industry collaborations in nurturing an environment that values innovation, collaboration and continuous improvement.

The presence of Indian universities in global rankings has been steadily increasing in recent years, reflecting a broader shift in the country's higher education landscape. Institutions such as the Indian Institute of Science and various Indian Institutes of Technology have consistently featured in international rankings like the QS World University Rankings and the Times Higher Education World University Rankings. This trend is attributed to improvements in research output, international collaborations, faculty quality, and infrastructure development. Policy initiatives, including the National Education Policy 2020, have also emphasised global competitiveness and institutional autonomy. While challenges such as funding gaps and uneven quality across institutions remain, the growing representation signals India's expanding footprint in the global academic ecosystem.
