The first university in India unifying industry and academia

Courses for building future-relevance in a rapidly shifting business world

Offered by

Ramaiah Institute of Science and Management (RISM) in collaboration with University at Albany

The world over, industries are evolving faster than institutional curriculums. The question, therefore, that students should be asking themselves isn't whether they'll be ready at the end of the course, it is if they'll be relevant.

At RISM, our education model is anchored in a curriculum co-developed with industry and academic partners, integrating interdisciplinary learning, industry-sponsored Centres of Excellence, and hands-on exposure to build future-relevant real-world capabilities.

No matter which globally benchmarked, innovative, industry-driven programme you choose to pursue at RISM, you will become a Master of Relevance.

Programmes offered

BTech: Computer Science & AI | Aerospace Engineering | Electrical Sciences

Business: BBA | MBA

Salient features

Academic Partnership: curriculum co-developed with SUNY Albany (one of the world's leading public research universities, based in New York)

Curriculum Design: programmes focused on future-relevant industries

Learning Model: industry exposure integrated throughout the programme journey

Translational Research: focus on commercialisation of academic research

Mentor Professors: India's first institutionalised Mentor Professor model

Campus: located within India's fastest-growing industrial corridor
