PROJECT COST

Construction cost *(by 2040, at the end of Phase 4)*

₹29,561 cr.

Investment so far *(construction, acquisition, etc. in Phase 1)*

₹11,200 cr.

Distance from...

Gurugram: **100 km**
IGI Airport: **90 km**
Central Delhi: **80 km**
Noida: **65 km**
Greater Noida: **40 km**

PASSENGER CAPACITY (per year)

12 mn	70 mn
First phase	Final phase*

105 mn IGI Airport

CARGO CAPACITY (tonnes per year)

0.25 mn	1.5 mn
First phase	Final phase*

1.8 mn IGI Airport

AIRCRAFT STANDS

28	200
First phase	Final phase*

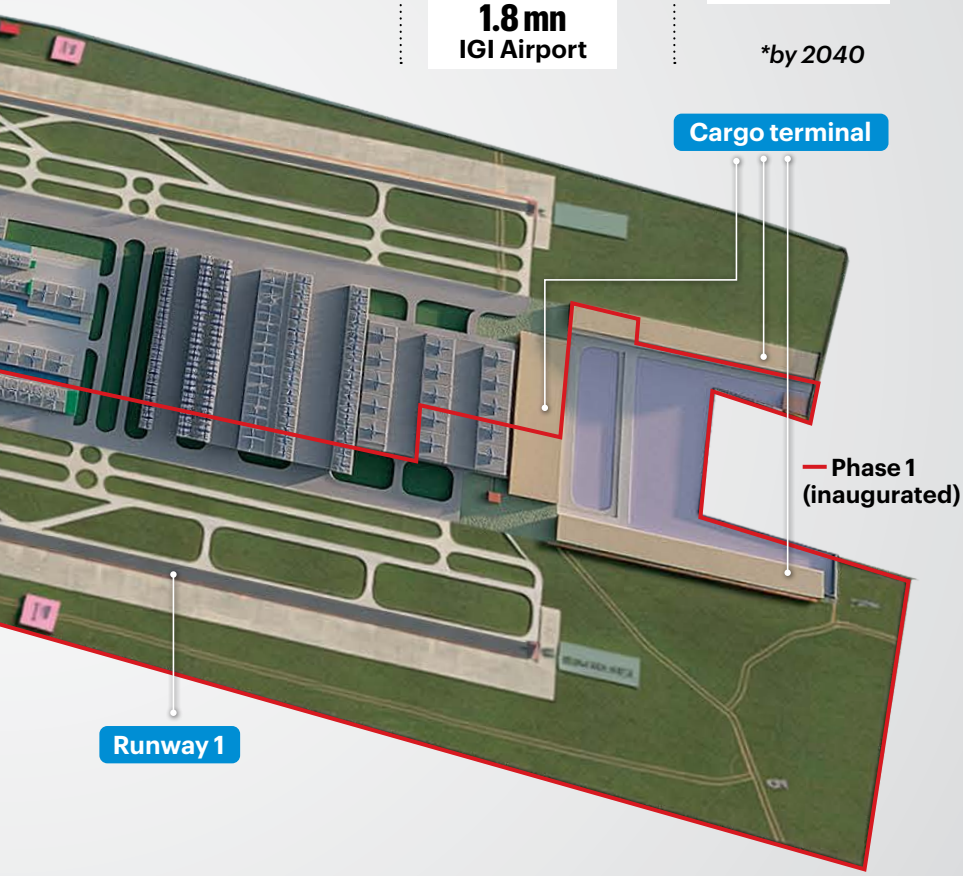

210–240 IGI Airport

NO. OF RUNWAYS

1	2
First phase	Final phase*

4 IGI Airport

**by 2040*

WHO WILL BENEFIT

- NIA relieves pressure on IGI Airport, which handled 79.2 million passengers in FY25—the highest ever—and is nearing its 105 mn capacity
- Also eases air cargo bottlenecks at IGI; NIA's annual capacity will scale from the current 0.25 MT to 1.5 MT
- Serves a catchment of 80 million people across Noida, Greater Noida, eastern Delhi and western UP
- Catalyses economic growth and urban development in Noida–Greater Noida region
- Improves regional connectivity for passengers and freight across UP, Haryana and Rajasthan

WHEN WILL THE FLIGHTS BEGIN?

- Commercial operations likely to begin by May-end
- Three airlines: IndiGo, Akasa, Air India Express
- Initial connectivity to about 10 Indian cities, including Mumbai, Hyderabad, Bengaluru, Kolkata, Lucknow, Dehradun, Hubballi
- International routes planned: Singapore and Dubai, for now, likely by September-October 2026
- 150 daily flights once Phase 1 is fully operational

PASSENGER TECH

- Fully paperless passenger facilitation system
- Self-baggage drop
- DigiYatra-enabled biometric gates
- Uber and Rapido partnerships for cab service

DESIGN ELEMENTS

- Local materials, arts, crafts embedded
- Stairs inspired by the ghats of Varanasi
- Red sandstone flooring in check-in hall
