WESTERN BELT [36]

Paschim Bardhaman, Purba Bardhaman, Birbhum

BJP strategy: Focus on agrarian distress and rural slowdown, target extortion syndicates, pitch for grassroots "change"

Outcome: Fuelled by rural discontent, weakening TMC organisation and an OBC voter shift, this emerged as Bengal's biggest swing zone

NORTH BENGAL [54]

Cooch Behar, Alipurduar, Jalpaiguri, Darjeeling, Kalimpong, Uttar Dinajpur, Dakshin Dinajpur, Malda

BJP strategy: Tap into the Gorkha autonomy sentiment, Rajbongshi-OBC consolidation, tea garden welfare pitch, border security concerns, and a sustained "North Bengal has been neglected" narrative

Outcome: The BJP pushed deeper into Dinajpur and Malda's fringe belts, significantly raising its tally

JANGALMAHAL [40]

Jhargram, Purulia, Bankura, Paschim Medinipur

BJP strategy: Welfare-delivery efficiency pitch ("Delhi delivers, state blocks"), tribal consolidation and attacks on corruption in local governance

Outcome: The BJP reversed earlier trends, decisively wrested the tribal belt on the back of local anti-incumbency

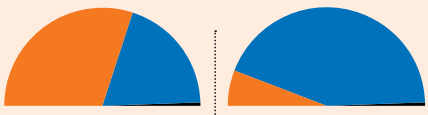

SOUTH BENGAL [92]

Kolkata, Howrah, Hooghly, South 24 Parganas, Purba Medinipur

BJP strategy: Targeting urban governance failures, corruption and "syndicate culture", law-and-order and women's safety concerns, and middle-class anxieties through focused outreach to trader and urban middle-class networks

Outcome: Backed by urban dissatisfaction and a shift among women voters, the BJP dented the TMC's urban dominance

SOUTHWEST BORDER BELT [72]

North 24 Parganas, Nadia Murshidabad

BJP strategy: CAA/NRC push, Matua mobilisation, illegal immigration rhetoric

Outcome: Despite minority consolidation behind the TMC, the BJP made its deepest inroads yet here
