NEW LAUNCHES

Mercedes-Benz GLC EV

The volume driver for Mercedes-Benz has entered an electric avatar in its latest generation. Called the GLC with EQ Technology, this is the successor to the EQC SUV. This is based on the MB.EA platform, and gets 800V architecture and is offered with a 94kWh battery pack and can be had in single or dual-motor configurations. The GLC EV features a dramatic grille that features 942 backlit dots, around the illuminated logo in the middle. It also gets star-shaped lights at the front and the rear. The GLC debuts an all new interior, using a 39.1-inch MBUX Hyperscreen, the largest the brand has ever made, stretching across the width of the dashboard. The steering meanwhile has physical controls, first for Mercedes in many years. Mercedes-Benz claims a range of more than 700km on a single charge for the GLC EV.

Price
₹90 lakhs
Launch
October 2026
