COLLECTOR'S EDITION

THE **EVERGREEN** CHOICE

Timeless prestige is an enduring OMEGA imprimatur. This 30mm Seamaster Aqua Terra is a case in point. A masterpiece of light and form, cast in the radiant glow of 18K Moonshine™ Gold, this is a keeper. A profound tribute to OMEGA's maritime soul, its symmetrical case is framed by a polished bezel pavé-set with 46 brilliant diamonds, encircling a stunning sun-brushed dial in deep, lacquered green. Every detail is a pursuit in refinement. From the 11 diamond hour markers to the delicate, tapered hands that emit a serene blue luminescence, the watch balances brilliance with clear legibility. At its heart beats the Co-Axial Master Chronometer Calibre 8751, an icon of Swiss precision certified to the highest industry standards by METAS.

Completing this exceptional ensemble is an integrated bracelet of Moonshine™ Gold, comprising elegantly rounded, polished-brushed links and a comfort-adjustment system—ensuring that the embodiment of horological luxury feels as effortless as it looks.
