

Sony XAV-9500ESTouch Screen Receiver

This 10.1-inch high-resolution receiver is less a car upgrade and more a cabin glow-up. Its sharp anti-glare touchscreen, wireless Apple CarPlay and Android Auto, Hi-Res Audio support, ESS DAC, and advanced sound tuning turn everyday drives into a far richer experience. Add flexible mounting, cable-free smartphone connectivity, and support for up to three cameras, and it becomes an easy pick for drivers who want their dashboard to feel smarter, cleaner, and unmistakably premium.

Price ₹1,04,990

Sony XS-162ES Speakers

The Sony XS-162ES is built for drivers who care as much about sound texture as they do about volume. Its lightweight rigid woofer, aramid fibre matrix, soft dome tweeter, and bi-amp-capable crossover work together to deliver cleaner highs, tighter bass, and lower distortion across the range. In simpler terms, it makes your music sound richer, more detailed, and far less strained, which is exactly what a premium in-car audio upgrade should do.

Price ₹1,08,000 (set of four)
