In the heart of Mylapore, where the air is thick with the scent of jasmine and the echoes of Carnatic music, lies a sanctuary that bridges two worlds. This 2,100 sq ft apartment is more than just a residence; it is a "forever home" for a young family of four who recently traded the maple leaves of Canada for the raintrees of Chennai.

After a decade abroad, the homeowners sought a space that would soften the edges of their intercontinental transition. The result is a home that feels deeply rooted in Madras yet carries the breezy sophistication of modern global living.
