FLOS IN THE SPOTLIGHT!

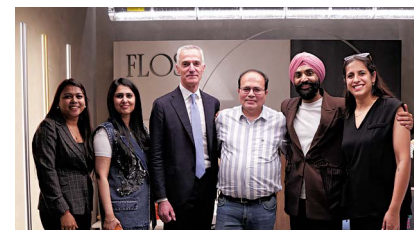

Aux Home, in collaboration with Flos, hosted an evening dedicated to lighting design and the creative voices shaping it. The gathering became a space for dialogue, where ideas were exchanged, perspectives unfolded, and design was experienced beyond its physical form.

Aux Home's partnership with Flos, spanning over a decade, reflects a shared commitment to innovation and timeless design. The event took place at their experience centre situated on MG Road in New Delhi, spanning across 20,000 square feet and offers a diverse range of offerings.

Appreciating the lovely experience, Carlo Moro said,
"This is an innovative idea by our partner AUX Homes to arrange a get-together of people from different fields, but with special focus on the industry of light designers, which is relevant for a brand like FLOS. We had the opportunity to understand the different philosophies that the lighting designers are injecting in their projects."

On the occasion, Co-Founder, AUX Home, Chitvi Kaur, said,
"FLOS is always about story-telling and AUX Homes resonates with the same value." Adding to it, Harpreet Singh, Co-Founder, AUX Home, stated, "Today's event was totally dedicated to lighting and light designers, and how light plays an important role in spaces of homes, commercial settings or any kind of space."
