GUARDING THE BLUE FRONTIER

"I can say with conviction that most issues pre-26/11, like a lack of coordination between agencies, have been fixed. We are on very good footing with respect to maritime and coastal security"

"We are both innovating indigenous technology and using imported tools. Real-time data can flow from oceans to maritime operating centres and straight to control units"

DG S. PARAMESH
AVSM, PTM, TM, Director General, Indian Coast Guard

ATMANIRBHAR IN ACTION: HOW THE SOUTH IS BUILDING INDIA'S

DR DUVVURI SESHAGIRI
Distinguished Scientist and Director, NPOL (DRDO)

"Drone deterrence will play a critical role.... Airborne platforms will be important for extending detection ranges and reaction windows"

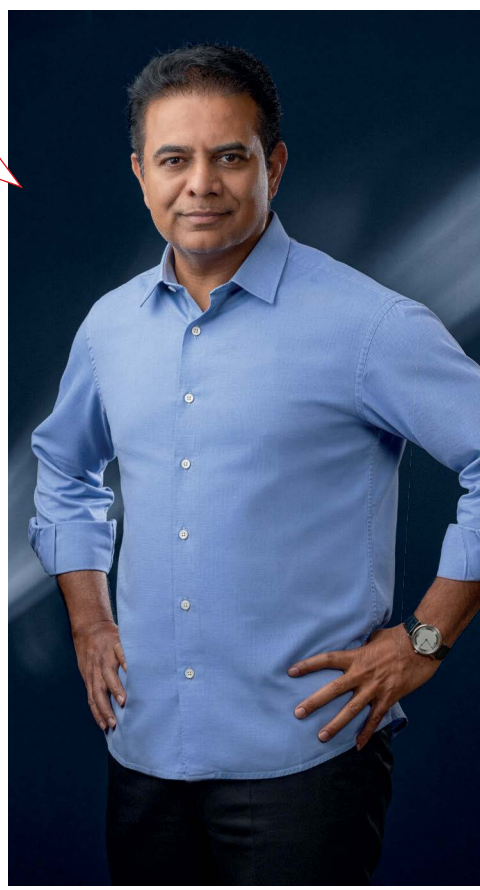

DR V.K. ANANDAN
CTO & Senior VP (Technology and Business Development), Astra Microwave Products Ltd; CEO, Astra Space Technologies Pvt. Ltd

TELANGANA: FROM FORMATION TO TRANSFORMATION

K.T. RAMA RAO
Working President, Bharat Rashtra Samithi

"When confidence in the system erodes, when your leadership in a democracy doesn't seem accountable, things will happen. NEET was just the beginning. What was seen on Delhi's streets was the angst of youngsters against the establishment. They don't want the divide of politics or religious bigotry"

"We will support the Delimitation Bill if the central government promises us that the representation of the South remains at 24% of the seats in Parliament"
