LEGACY

FOOD & DRINK

Jamavar, The Leela Palace, Bangalore—2001

The New Royalty of Indian Dining

Jamavar is the youngest restaurant in this group and that is precisely what makes its story compelling. The food looks towards India's past. The experience aims squarely towards its future. That distinction matters. For generations, Indian fine dining often approached royal cuisine as something to be preserved: recipes inherited, techniques protected, traditions replicated. Jamavar asks a more contemporary question: What happens when heritage is not trapped in a bubble but becomes the toast of the glass.

Jamavar demonstrates that Indian luxury can be Indian, opulent, contemporary and globally ambitious at the same time. If Bukhara represents established Indian culinary royalty, Jamavar is part of the new court.

Signature Regional Indian cuisine interpreted through contemporary luxury

The Jamavar lesson Heritage has power only when the next generation wants it.

Orient Express, Taj Palace, New Delhi—1983

The Train That Never Left Delhi

Long before restaurants began talking about immersive experiences, Orient Express was already selling one. The train, of course, never moves. That is the genius. Since opening on December 24, 1983, the restaurant at Taj Palace has transformed dinner into theatre, recreating the atmosphere of the legendary European train and taking diners on a gastronomic journey across Europe without ever leaving New Delhi.

The dining room evokes a railway carriage down to its fittings: rich mahogany walls accented with Lalique detailing, delicate brass luggage racks, fine porcelain, crystal goblets and pristine white linen. A resident pianist plays through service, mellifluous notes drifting over a menu of classic French and European fare.

But the real product is neither the food nor the room. It is escapism. The restaurant understood decades ago what experiential hospitality is still trying to articulate today: People don't always pay for a meal. They pay for the feeling of being somewhere else. That is why Orient Express has remained relevant. It has a story and stories age differently from trends.

Signature Camembert cheese soufflé, lamb chasseur, magret duck & seared king scallops

The Orient Express lesson The best dining experiences transport you—even when the table doesn't move.
